- Efficiency

As required by legislation, the Accessibility for Ontarians with Disabilities Act, 2005 (AODA), the Library shall incorporate accessibility criteria and features when procuring or acquiring goods, services or facilities, except where it is not practicable to do so.

If it is not practicable to incorporate accessibility criteria and features when procuring or acquiring goods, services or facilities, it shall provide, upon request, an explanation.

The intent of this requirement is that the Library incorporate accessibility criteria and features into their procurement practices so that goods, services, and facilities are more accessible to people with disabilities, unless it is not practicable to do so.

### Accessibility Features and Criteria:

Additionally, some organizations may consider environmental or manufacturing criteria, i.e., more value is placed on products that meet green initiatives or are made-in-Ontario products. Another criterion that could be included is accessibility training. This may be important for organizations when hiring another organization to provide services for them.
